CHARTING NOTICE

Date: June 13, 2013

To: Users of the Terminal Procedures Publication (TPP) and the Users of the Digital Terminal Procedures Publication (d-TPP) DVD.

From: Aeronautical Navigation Products (AeroNav Products)

Subject: Non-Regulatory Precision Runway Monitor (PRM) Attention All Users Page (AAUP) reorder

Effective for the **June 27, 2013** chart publication date there is a change to the Non-Regulatory Precision Runway Monitor (PRM) Attention All User Pages (AAUP).

The format of the AAUP pages is being modified from multiple AAUPs included with the individual PRM procedures to a single PRM AAUP for each airport. This change has necessitated the modification of the order of index entries within the TPP. As a result of the single AAUP all of the PRM procedures will be located together and follow the PRM AAUP at the end of the Standard Instrument Procedure (SIAP) order for any given airport.
