

NOTICE

U.S. Department of Transportation
Federal Aviation Administration

N 8200.109

07/25/08

Cancellation
Date: 07/25/09

SUBJ: **Pen and Ink Change to Chapter 15 of FAA Order 8200.1C, United States Standard Flight Inspection Manual, Level Run Altitude Adjustment for Weather**

- 1. Purpose of This Notice.** This Notice provides interim guidance to FAA Order 8200.1C, United States Standard Flight Inspection Manual.
- 2. Audience.** The audience for this notice is the Air Traffic Technical Operations Eastern, Central, and Western Service Areas; Flight Inspection Offices and crewmembers in Aviation System Standards; and special military addressees.
- 3. Where Can I Find This Notice?** Go to the Directives Management System (DMS) website: https://employees.faa.gov/tools_resources/orders_notices/ or to the Aviation System Standards website: <http://www.avn.faa.gov/index.asp?xml=fioo/notices>
- 4. Explanation of Policy Change.** This Notice allows an altitude adjustment for weather during a periodic type inspection. The intent is not to re-establish the level run altitude rather adjust the altitude when weather would preclude the completion of a periodic type inspection. An altitude adjustment for weather does not apply for commissioning, reconfiguration, special or periodic inspections when a JO 6750.49 ILS Handbook reference is established/ adjusted.
- 5. Guidance.** Please make the following pen and ink changes to FAA Order 8200.1C:
After Paragraph 15.30f(1), Approved Procedures –Level Run, add the following:

“**NOTE:** Altitude limitation of the established level run altitude may be adjusted for weather during Periodic type flight inspections. Altitude adjustment does not apply for commissioning, reconfiguration, after accident, or any inspection where a monitor reference is established.”
- 6.** The above guidance will be incorporated in the next change of FAA Order 8200.1C, United States Standard Flight Inspection Manual.

/s/ Cheryl A. Bothwell for

Thomas C. Accardi
Director of Aviation System Standards
